

# School Check IN

## Version 6

### System Requirements

#### Operating Systems

- **Windows-** Win XP w/SP2, or newer, Vista, or Windows 7 (32 bit or 64 bit)  
To install School Check IN, a Windows administrator account is required. Once installed, most any windows user account can be used to run School Check IN, and the \SchoolCheckIN folder must be set to FULL CONTROL for the user. The SchoolCheckIN folder is in C:\Program Files\. School Check IN (SCI) is a database application, not a program and as such, SCI needs the ability to read, write data, as well as, copy, move and delete files and folders in C:\Program Files\SchoolCheckIN\
  - **MAC** – OSX 10.6 or higher.

#### Hardware

- **Processor** -- Pentium III (or higher) or equivalent AMD (or higher) processor.
- **Computer** – Stand-alone dedicated computer (laptop or desktop).
- **Memory** -- 512 MB memory (1GB preferred)
- **Hard Disk** -- 10 GB free hard disk space
- **Video** -- Color Monitor w/graphics card – **1024 x 768 video resolution.**
- **Mouse**
- **CD-ROM Drive**
- **USB port(s)** (USB 2.0 or higher recommended).

#### Printers --

- **ID Badges or Passes** -- Dymo LabelWriter Printers  
Models – 450, 400, or 330 Dymo Labelwriter Printers.  
Dymo 450 **TWIN** does not fully work on MAC 10.7. A patch is expected in August 2012.
- **Reports** -- Standard inkjet or laser printer.

**Network Connectivity** (recommended for data backup purposes).

**Battery Back Up** -- (recommended, but not required).

---

School Check IN is installed on a single (**dedicated**) computer with either TWO (2) Dymo LabelWriter printers or **ONE** TWIN Turbo printer. Most schools use this solution because it's more economical.

- Printer #1 (Left Roll) is used to print Late/Tardy & Early Dismissal Passes (continuous paper) – Cost ~ 1¢ each.
- Printer #2 (Right Roll) is used to print Visitor & Volunteer ID Badges (peel & stick labels) – cost ~ 5¢ each.
- Printer #3 -- laser or inkjet printer is attached for printing reports.

Internet Connectivity is required for:

- Updates
- Enterprise Edition
- OffenderCHECK

OffenderCHECK and BioCHECK are available for Windows only, not available for MACs.
